

THESES AND DISSERTATION TITLES

As a service to readers, we are publishing titles submitted to us by graduate students who have completed their programs. Often this information is not readily available outside of the particular university, is published later, or in some cases, not at all. A prescribed format for submission by students is given on an SWST web page (<http://www.swst.org/theses.html>). The titles are also published on the web page, usually with links to the documents.

- Adebayo A (2010) Pretreatments and energy potentials of Appalachian hardwood residues for biofuel production. PhD dissertation. West Virginia University, Division of Forestry and Natural Resources, Morgantown, WV (adviser: J Wang) 94 pp.
- Drouin M (2010) Analysis of paper birch (*Betula Papyrifera Marsh*) wood color variability and its impact on lumber quality and value. PhD dissertation. Université Laval, Faculty of Forestry and Geomatics, Québec, QC (advisers: R Beauregard and I Duchesne) 172 pp.
- Le EA (2010) Numerical modeling and experiments on wood-strand composites. PhD dissertation. Oregon State University, Wood Science and Engineering Department, Materials Science Department, Corvallis, OR (advisers: JA Nairn and WH Warnes) 181 pp.
- Liu MLY (2010) Fermentation of hemicellulose rich liquid fraction derived from steam pretreated softwoods. MS thesis. University of British Columbia, Faculty of Forestry, Vancouver, BC (adviser: G Go) 112 pp.
- Qin W (2010) High consistency enzymatic hydrolysis of lignocellulose. MS thesis. University of British Columbia, Faculty of Forestry, Vancouver, BC (adviser: G Go) 140 pp.
- Sharma B (2010) Modeling of forest harvest scheduling and terrestrial carbon sequestration. PhD dissertation. West Virginia University, Division of Forestry and Natural Resources, Morgantown, WV (adviser: J Wang) 160 pp.
- Teklehoyannes AT (2010) Unified and heterogeneous modeling of water vapour sorption in Douglas-fir wood with artificial neural networks. PhD dissertation. University of British Columbia, Faculty of Forestry, Vancouver, BC (adviser: S Avramidis) 284 pp.
- Chastain JS (2009) A statistical reliability analysis of the variability and upper percentiles of the wood strand thickness of oriented strand board. MS thesis. The University of Tennessee, Department of Statistics, Knoxville, TN (adviser: TM Young) 138 pp.
- Crookston KA (2009) Reliability of wood plastic composites and improving lower percentile estimation via induced percentile censoring. MS thesis. The University of Tennessee, Department of Statistics, Knoxville, TN (adviser: TM Young) 126 pp.
- Cyr PL (2009) Amino resins (UF and MUF) penetration in medium density fiberboard (MDF) fibers. PhD dissertation. Université Laval, Faculty of Forestry and Geomatics, Québec, QC (adviser: B Riedl) 218 pp.
- Dhungana S (2009) Development of a web-based woody biomass energy expert system. MS thesis. West Virginia University, Division of Forestry and Natural Resources, Morgantown, WV (adviser: J Wang) 64 pp.
- Oporto GS (2009) Characterizing the mechanism of improved adhesion of modified wood plastic composite (WPC) surfaces. PhD dissertation. University of Maine, Orono, ME (adviser: DJ Gardner) 213 pp.
- Rathi VM (2009) Bending property enhancement of wood strand composite using viscoelastic thermal compression (VTC). MS dissertation. Oregon State University, Wood Science and Engineering Department, Corvallis, OR (adviser: FA Kamke) 125 pp.
- Wu J (2010) Development of economic analysis model for woody biomass to biofuels in central Appalachian. PhD dissertation. West Virginia University, Division of Forestry and Natural Resources, Morgantown, WV (adviser: J Wang) 199 pp.
