

## THESIS AND DISSERTATION TITLES

As a service to readers, we are publishing titles submitted to us by graduate students who have completed their programs. Often this information is not readily available outside of the particular university, is published later, or in some cases, not at all. A prescribed format for submissions by students is given on an SWST web page (<http://www.swst.org/thesis.html>). The titles are also published on the web page, usually with links to the documents.
